

CALIFORNIA

Efficiency + Demand Management

COUNCIL

June 28, 2022

The Honorable Toni Atkins
Chair, Senate Rules Committee
State Capitol, Room 400
Sacramento, CA 95814

Re: Confirmation of Severin Borenstein, Member, Independent System Operator Governing Board -- Support

Dear President pro Tempore Atkins,

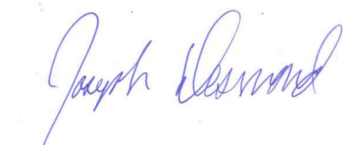

On behalf of the California Efficiency + Demand Management Council (Council), I write in enthusiastic support of the Governor's appointment of Severin Borenstein as a Member of the Independent System Operator (ISO) Governing Board.

The Council is a trade association representing a wide range of companies that provide energy efficiency and demand response services and products in California, although our organization does not include utilities. We represent companies that design, implement, maintain and evaluate energy efficiency and demand response and employ thousands of people who play an important role in California's economy.

Mr. Borenstein has served in several important executive leadership positions, including Director of the University of California's Energy Institute, Member/Chair of the Petroleum Market Advisory Committee with the California Energy Commission, Member of the Board of Directors at the Association of Environmental and Resource Economics, and of course, as a current Member of the ISO's Board of Governors. The Council greatly appreciates Mr. Borenstein's strong support of demand-side resources as demonstrated across his decades of experience.

For the above reasons, the Council respectfully urges your support for Mr. Borenstein's appointment to the ISO Governing Board. Thank you very much for your time and consideration.

Sincerely,

Joseph Desmond
Executive Director
California Efficiency + Demand Management Council

CC: Members, Senate Rules Committee
